Ed,

These maps don't show the paleo objects. Is that in the mix of what has been sent here previously or can you add that one in? And as we discussed yesterday, can we have your folks pull the descriptions of these landscape features and objects and send them to me as they are compiled? One more question...is there any ESA or wildlife habitat or flora/fauna objects in the monument boundary?

Response	All respondents	Those who have a good relationship with their partner	Those who do not have a good relationship with their partner
Yes	90%	100%	0%
No	10%	0%	100%

When we get the mineral info we can produce a map with all four layers you requested. ed
